

ADVANCING PHYSICS

<http://advancingphysics.iop.org>

IOP Publishing

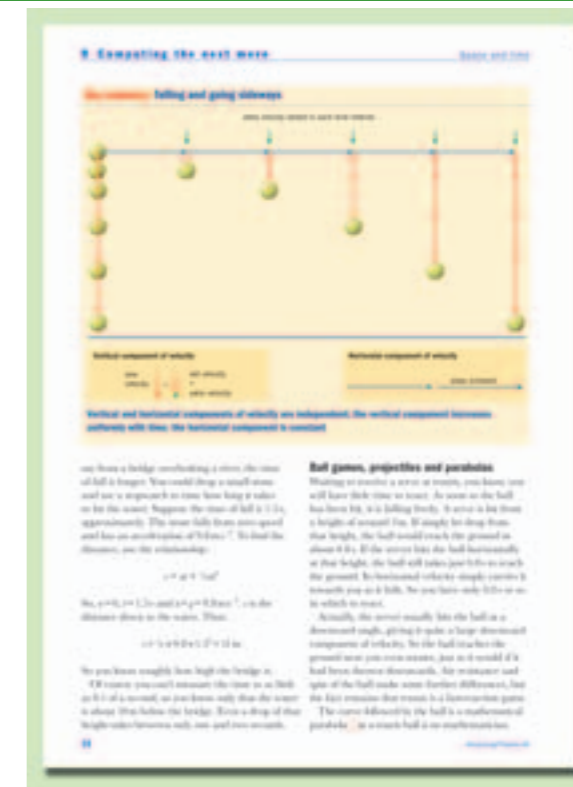

AS Student Book
 A2 Student Book
 AS CD
 A2 CD
 AS/A2 Revision CD

- High-quality student resources updated with new content and tailored to meet the new specification requirements
- New editions of the CDs include lots of engaging resources, stimulating students' interest in the subject
- CDs include Advancing Physics Quick Tour – a good starting guide and an invaluable tool to increase the use of the CD

Advancing Physics Teacher Pack

AS/A2 Teacher CD
 AS/A2 Revision CD
 Teacher's Guide

- Teaching resources that help you to maximise student participation
- Comprehensive teacher's guides, helping you to plan and prepare for the lessons
- Easy to use CD with a lot of support material, such as question sheets, computer simulations and experiments

*"There is everything
that you could possibly
require to teach
exciting and
stimulating lessons."*

Laurie Mansfield,
Advancing Physics
Revision Roadshow
Speaker

How can I find out more?

Join us at the ASE annual conference this year and take part in the discussion forum that will take place at 2 p.m. on Friday, January 4, 2008 in the Proudman Room, Maths Building. Visit the Advancing Physics stand at the ASE where you will have an opportunity to meet the publishers, take a look at the sample copies of the new Advancing Physics resources, try out the new edition of the CDs and explore the redesigned website.

How to order

Advancing Physics resources will be available from April 2008. To order please download the order form from:

<http://advancingphysics.iop.org/teacher/order.html>

If you have any other queries, please contact us :

- By phone: 0117 930 1269
- By fax: 0117 930 1180
- By email: **advancingphysics@iop.org**
